

# CONSPIRACY CHARGE IS ONLY ONE LEFT

## EMBEZZLEMENT CHARGES STRICKEN FROM THE RECORD

Judge Edwards and State Combine to Accomplish This—The Court Also Arraigns Circuit Clerk Byers of Sangamon County—Governor Small Issues Statement

WAUKEGAN, Ill., Dec. 29.—Governor Len Small today was freed of every charge against him except that of conspiring with Lieutenant Governor Fred E. Sterling and Vernon Curtis to defraud the state of \$2,000,000 during Mr. Sterling's term as state treasurer.

All charges of embezzlement, during his own term as state treasurer were stricken from the record partly by Judge Claire A. Edwards and partly by the state and the court also quashed a charge of operating a confidence game.

Tonight Governor Small issued a statement declaring that "what occurred this afternoon in the circuit court of Lake county will lay bare to the public mind the methods employed and the inspiration causing these indictments."

The date of his trial on the one charge remaining is still uncertain. Judge Edwards in his decision on the motion to quash the indictment obtained the governor to trial on January 9, on an indictment charging him with embezzlement of \$500,000 during the last six months of his term as state treasurer.

Half Million Acres Less Than That Sown in 1921

## SPOKESMEN FOR OIL MEN HEARD BY COMMITTEE

Varying Duties are Proposed on Crude Oil

WASHINGTON, Dec. 29.—Varying duties on crude oil were proposed before the senate finance committee today by spokesmen for mid-continent producers and all duties were opposed by American producers operating in Mexico and representatives of various classes of oil consumers in this country.

Renewing the fight for a tariff levy, which was lost in this house by an overwhelming vote, Senator Harold, republican, Oklahoma, said he was satisfied with the original rates proposed by the ways and means committee, thirty-five cents a barrel on crude and twenty-five cents a barrel on fuel. Senator Curtis, of Kansas, a republican member of the finance committee, has introduced an amendment to the tariff bill proposing the duties.

W. H. Gray, of Tulsa, Okla., representing the National Association of Independent Oil Producers, suggested no specific rates, but he urged that the president be empowered to assess a duty equivalent to the combined import and export levies imposed by Mexico, Colombia and Venezuela, from which the chief American imports come.

Spokesmen for the domestic producers said, and some members of the committee agreed that the mid-continent industry was in bad condition at this time. Mr. Smith said that 200,000 small wells could not continue in operation at present prices and that a tariff ought to be enacted, both as a protection and a conservation measure.

Opponents of a duty on oil, said a tariff protection was not necessary and would serve only to increase the price to all consumers. They laid particular stress upon what they said would be the effect on the farmers, the merchant marine, the navy, the consumers of manufactured gas, railroads and industries using oil for fuel and upon the users of automobiles, trucks and tractors.

It also was argued by the opponents that higher-priced oil would increase the cost and retard road building and building operations over the country and that since the government aided in constructing the roads, it would have to pay part of the duty. This also was true, they said, with respect to oil used by the navy.

## REPRESENTATIVE OF SOVIET TO COME

WASHINGTON, Dec. 29.—Permission has been granted the soviet government to send a representative to this country to supervise the expenditure of ten millions of dollars of former imperial Russian treasury funds for the purchase of grain for famine relief. Secretary Hoover said today. The request of the soviet government that they be permitted to send an agent to this country to check up purchases of famine supplies made with Russian funds was regarded as "reasonable" Mr. Hoover said, and the soviet government has been so informed. The soviet government was informed however, that the agent would be admitted to this country only for the purpose of supervising the purchase of supplies with Russian money.

Mr. Hoover said it was probable that the representative, if sent, would be some one connected with the Russian cooperative societies who had had experience in the handling of grain and foodstuffs.

Deputies took Humphrey to the county jail. On the way to jail Humphrey battled the deputies but was locked up.

## BITUMINOUS COAL SURVEY TO BE MADE

(By The Associated Press)

WASHINGTON, Dec. 29.—A survey of the entire bituminous coal situation in this country will be undertaken by a special staff of the National Unemployment conference to be appointed next week, Secretary Hoover said today. Such a survey, Mr. Hoover explained was recommended by the conference with special reference to intimacy in the industry.

It would probably take several months, he added, and would be financed by funds raised from coal men altho the cost was not expected to exceed \$6,000 or \$7,000. It would not extend to anthracite coal he explained as there was very intimacy in that branch of the coal industry.

Further inroads of British coal into American markets was reported by Mr. Hoover who declared that the British were now selling coal at less than cost in anticipation of a greater production.

The Journal, in its issue of Dec. 31, will announce the tabulations for these states—Idaho, Kansas, Maine, Mississippi, Nebraska and Rhode Island. Last week the Journal announced the result of the questionnaire sent to physicians in Indiana and Illinois.

On the question of beer, 1,404 doctors in the eight states replied they believed it had medicinal value and 3,338 physicians said they did believe it necessary as a therapeutic agent.

Wine as a therapeutic agent was supported by 1,592 doctors in the eight states and opposed by 3,624.

In the eight states 3,184 physicians stated they favored restrictions in the prescribing of whisky, beer and wine while 1,929 physicians were opposed to such restrictions.

## GERMAN POTASH SYNDICATE TRIES TO TIE UP AMERICA

Make Contract to Purchase 75 Per Cent From Germany

(By The Associated Press)

WASHINGTON, Dec. 29.—A copy of a contract entered into by thirty-four manufacturers of fertilizer, with the potash syndicate of Germany, by which the former bind themselves to purchase seventy-five per cent of their potash requirements from the latter, was read today in the record of the finance committee.

The contract was produced by S. D. Crenshaw, vice president of the South Carolina Chemical Co. Senator Smoot, republican, Utah, said he wanted to show to senators that it not only invaded all anti-dumping laws passed by congress, but also all American anti-trust laws.

"If that contract can stand," Senator Smoot declared, "Germany will see that the potash industry in the United States will never be developed."

Mr. Crenshaw, whose company is one of those a party to the contract, said the instrument was so drawn that the American manufacturers could buy twenty-five per cent of their supply from French or domestic sources. It developed, however, that the American firms would get a lower rate per ton if they bought their entire supply from the German syndicate than if they bought only twenty-five per cent from that source.

## WOULD STOP SUBS FROM WARRING MERCHANT SHIPS

Root Resolution to This Effect is Approved

(By The Associated Press)

WASHINGTON, Dec. 29.—A resolution by Elihu Root reaffirming existing rules of naval warfare for surface craft and strict application of this code to submarines operating against merchant craft was accepted in principle today by the naval committee of the arms conference.

Mr. Root's second proposal, that a new rule of international law be initiated outlawing entirely submarine operation against merchantmen was still under discussion when the committee adjourned for the day. It had been urged in addresses by each member of the American delegation and approved formally for the British group by Arthur J. Balfour. The other delegations still are to be heard on this subject.

In the form in which the first proposal was approved in principle and sent to sub-committee for final drafting the Root proposal sets out a new rule of visit and search belligerent craft observe in dealing with commercial vessels and couples with this the declaration that submarines must be governed by these rules.

In committing the resolution to sub-committee headed by Mr. Root for final drafting, Secretary Hughes said he hoped it would not be overlaid with lawyers niceties when it re-emerged.

It would have seemed "extraordinary indeed," Mr. Hughes declared, if the conference had not voiced "a most emphatic condemnation" of the atrocious practices, "in submarine warfare indulged in during the recent war. But such a declaration as was planned, he added, was timely and necessary also, because the conference had failed to reach an agreement either to ban submarines entirely or to limit each nation's tonnage in these craft.

M. Sarraut for the French group made a formal declaration of the acceptance of France of the principles of the first Root resolution.

Deprecate British View.

The French delegate deprecated what he said was an apprehension expressed by Mr. Balfour that certain countries might, "in spite of everything yield to the temptation to misuse the weapons remaining in their hands."

With the first Root proposal on its way toward adoption Secretary Hughes laid before the committee the second resolution as follows:

"The signatory powers recognize the practical impossibility of using submarines as commerce destroyers without violation of the requirements universally accepted by civilized nations for the protection of the lives of neutrals and non-combatants and to the end that the prohibition of such use shall be universally accepted as a part of the law of nations they declare their assent to such prohibition and invite all other nations to adhere thereto."

Mr. Balfour suggested that the five powers present could agree between themselves to outlaw submarine warfare against merchant vessels even before world assent to such a proposal was received. Mr. Root accepted his suggestion and Mr. Balfour then proposed amending the prohibition so as to read:

"They declare their assent to such prohibition and they agree to be bound forthwith thereby as between themselves and the invite all other nations to adhere to the present agreement."

## DEBS SPENDS QUIET DAY AT HIS HOME

(By The Associated Press)

TEIRE HAUTE, Ind., Dec. 29.—Back at his home after almost three years in prison because of his anti-war speech in 1918, Eugene V. Debs (the socialist) spent today in quiet, broken only by visits of friends. He announced tonight that all plans for his future activities would be held in abeyance for some time. Friends said he would make a lecture tour next year probably under the auspices of the Socialist party.

Mr. Debs also announced that he had declined to address a New Year's day meeting at New York which he said was planned by the Rand School of Social Economics.

Most of the Socialist party leaders who had gathered here to welcome Debs back visited him during the day and then left for their homes scattered over the country.

## AMOS W. KELLOGG IS SERIOUSLY WOUNDED BY THREE ROBBERS

Is Shot in the Head at His Restaurant in Illinois Avenue Thursday Night—Robbers Secured About \$100 But Overlooked \$150 in Coin in Pigeon Hole in Writing Desk

Amos W. Kellogg, a restaurant keeper at 138 Illinois avenue, is at Passavant hospital in a serious condition from a gunshot wound inflicted by three men who held up his establishment about 9:15 o'clock Thursday night.

After shooting Kellogg the robbers bound him and took about \$75 in cash from his pockets and then carried him into the kitchen. Returning to the restaurant they ransacked it. Six dollars was secured from the cash register. However, the robbers after breaking into a writing desk overlooked two sacks containing \$150 in coin which were in plain view in a pigeon hole.

The robbers then ascended to the upper floor where the sleeping apartments of Mr. Kellogg and Mrs. Kelly, who is an employee of the place, are located. They ransacked Kellogg's bed and took two revolvers.

Mrs. Kellogg sleeps in the rear room. She heard the men but thought at was Mr. Kellogg. They opened the door of her room and a flash light was thrown on the bed. One of the men, according to Mrs. Kelly, said "keep the light and gun on her and if she makes any noise plug her."

After searching the room the robbers descended again to the restaurant. Mrs. Kelly jumped out of bed and followed down stairs. The stairway also opens on the street and she ran across the tracks in Illinois avenue to the Chicago & Alton railroad station and told H. D. Capps of the robbery. Mr. Capps immediately called the police station.

He then seized two revolvers, and giving one to Charles Stewart, a hack-driver, they accompanied Mrs. Kelly to the restaurant.

Chief Kiloran was at the station when the call came and in company with Captain Elliott they made a fast run in M. C. Hook's car to the scene of the robbery, arriving about the same time as Capps, Stewart and Mrs. Kelly.

Sergeant James Trahey, with Patrolmen Earl Williams and William Blue, arrived on the scene shortly after the other officers.

The robbers had locked the front door and they were unable to get in. However, Mr. Kellogg had retained consciousness and had managed to loosen his bonds. When he heard them at the front door he came and unlocked it.

Kellogg Wounded

Blood was streaming from Mr. Kellogg's head and the police at first thought it was probably the result of the robbers striking him over the head. Examination, however, revealed the gunshot wound and he was taken to Passavant hospital, where he was attended by Dr. A. M. King.

Dr. King stated that the bullet entered the head on one side and passed over the skull under the scalp and out on the other side. Dr. King also found above the left temple a large star-shaped cut. He is of the opinion that the robbers coming down stairs, found Kellogg regaining consciousness and hit him on the head with the butt of a revolver.

The wounded man was suffering from loss of blood and shock and Dr. King said that while he showed improvement when he left him, that he regarded his condition as serious. Mr. Kellogg is a man about sixty years of age.

When questioned by Chief Kiloran about the robbery, Kellogg said he was alone in the restaurant when shortly after 9 o'clock a man entered and ordered a cup of coffee. He had only been in the place a few minutes when two other men entered with handkerchiefs over their faces.

Leveling guns at Kellogg they ordered him to "stick 'em up!" Mr. Kellogg said he hesitated momentarily and one of the men fired, the bullet striking him in the head. That was all he remembered until he regained his senses and let the officers in at the front door.

The descriptions given by Mrs. Kelly and Mr. Kellogg are conflicting and the police have not much of a clue to work on, from the descriptions given by them.

Outside Gunmen Did Job

There is but little doubt that the job was done by gun men from some other city. This belief is based on the manner in which they worked and also because the officers do not believe that "local talent" would attempt to take a man's life in such wanton manner.

Before holding up Kellogg the robbers had secured about \$100 in cash from him. (Continued on Page Four.)

The report of Judge Jenkins shows that the prison population of Illinois has increased in the past year by nearly 400. These figures may mean either an increase in criminal tendencies or better enforcement of the law, so that there is no reason for feeling alarm and alleging the deterioration of society.

At any rate, it is a nice thing that no scandal was suggested or stirred in connection with the McCormick divorce proceedings. Just many millions were involved as in the Stillman case, which has had its months of publicity and still is without an end.

The visit of the cleanup squad of the veterans' bureau here this week is another evidence of the sincere effort that is being made to secure deserved attention for all ex-service men. Certainly the cases of men at the educational centers have special appeal and anything that is done for bettering the condition of these men will have universal approval and any expense incurred will be given the last thought.

Judge Edwards has rightly said that it is due the people of the state to give Governor Small's

case precedence over all other legal business in his court. It is inevitable that the general business of the state must be interfered with by the events in connection with the charges made against the governor, and the trial which is to follow.

A great deal of time is being consumed and the demands of the governorship of Illinois are sufficient to occupy both the time and best thought of the executive. So it will be in the interest of all the people for the case to be given precedence and thus come to a conclusion at the earliest date possible in accordance with customary legal procedure.

No doubt some of the wet sympathizers will regret that the League has taken such a position, instead of pursuing the extremely radical course which has been charged.

It is said that the movement is gaining ground thruout the country in opposition to any further increase in national holidays. The opposition comes because of the resulting loss of pay to workers and just now they present the argument that every day's work possible is needed and that enforced idleness carries with it not only the loss of wages but almost certain expenditures.

Certainly a few holidays are advisable but it is possible to increase the number that the holiday is a menace to business. Possibly sometime a method can be evolved for honoring great men or great events with a holiday observance which still permits business to move along in the cus-

tomary way. If railroads and some other lines of business observed holidays on the days that courts and public business suspend, a great howl of protest would be heard.

In the office of the county recorder it is necessary to occasionally call attention to the new state law with reference to chattel mortgages. Formerly the time of filing a chattel mortgage had no effect upon it unless another mortgage had been given in the meantime and placed on record.

### 'LIFE'

Based on the Play by Thomas Buchanan

Thrills, spectacular and daring. Romance, sweet and appealing. Conflict, excitement, mystery—A melodrama of startling power, combining a great love story with the most exciting situations ever conceived. The biggest thriller the stage has ever known. Twice as big on the screen. "A little gleam of time between two eternities." Flashing upon the towering steel and living, hurrying clay that is called New York. Beaming into human hearts. Light-up their struggles, their sins, their loves. Dancing thru Broadway's revel and jazz, down into the roaring canyon of Wall Street. Peeping into palace and boudoir and prison cell. Seeking always—happiness. Such is life—all of it a thrill in this great picture story.

# 'Prisoners of Love'

Betty Compson, whose youth, loveliness and lure have enthroned her as the Princess of the Screen, is given a most wonderful role in her first personally produced picture, "Prisoners of Love." The girl who followed instinct and shut her ears to the commandments of Society, makes good once more her claim to be called the most beautiful and accomplished actress in motion pictures. It is a story of fiery passion and ennobling love, lifted above common levels by extreme delicacy of treatment and acting that is absolutely flawless.

**Free Delivery****VALUE OF DAIRY PRODUCTS RUNS TO BIG FIGURES**

As evidence of the value of dairy products a Journal reader has sent for publication the following paragraphs taken from a Fairbault, Minn., paper. The statement also was shown that the dairymen in the locality mentioned are thoroughly organized.

"A quarter of a million dollars in cash has been distributed to Northfield dairymen who are members of the Twin City Milk Producers' association, for milk and butterfat produced within the past 12 months, according to H. R. Leonard, general manager of the association, who was the speaker at yesterday's noon luncheon at the Community building.

"Mr. Leonard gave a very interesting and informative talk on the organization and the work of his association. Started five years ago as a means of providing a better market for the farmers' milk, the association now has 3,800 members, 1,000 of whom have joined within the past year.

"Mr. Leonard refuted the accusation that the association is a trust that has cornered the milk supply in this territory. He pointed out that the association does not operate beyond a limit of 40 miles from the Twin Cities while many eastern cities draw their milk supply from points 300 miles distant. Neither does the association control all the milk within its territory, as there are many independent producers and several distributors not connected with the association."

**COLLEGES DECLINE TO PARTICIPATE IN OLYMPIC GAMES**

Take Action on Invitation from Association

(By The Associated Press)

NEW YORK, Dec. 29.—The National Collegiate Athletic association today definitely declined the invitation of the American Olympic association to join with it in future participation in the Olympic games.

The vote was 48 to 0 against such affiliation in the present form of the Olympic association's organization.

The collegiate association also went on record as favoring "the idea of an organization of a national athletic federation, proposed by Secretary of War Weeks."

The collegiate association adopted certain recommendations made by the newly formed football coaches' association, as presented by Major Charles Daly of West Point, among them a suggestion that the football rules committee prepare an addendum to the football playing rules to provide for the playing of the game by boys of fifteen years of age and under. Suggestions for these proposed rules provided for following the first boys' system of holding the catch of every punt and ceasing to tackle and piling on whenever the boy called "held."

**SLEEPING SICKNESS CURE DISCOVERED**

CHESTER, England.—(By The A. P.)—A cure for sleeping sickness has been discovered in Germany, according to Professor Newstead, of the Liverpool university, who related how a man who had spent some years in Africa, went to Liverpool university, where he was found to be suffering from sleeping sickness.

The man, along with a young medical student, was sent to Germany, and said the professor, "with more credit to the Germans he came home within a month completely cured."

The Germans, he said, had discovered a new drug, which had proved in valuable in the cure of sleeping sickness.

**WILL TRY TO REDUCE COST OF FUNERALS**

St. Louis.—By The Associated Press.—The Church Federation of St. Louis has taken steps to reduce the cost of funerals following receipt of a communication from the local presbytery calling attention to high funeral charges.

The following passage was included in the communication: "When great grief comes no one is in a bargaining mood but wants the best."

A committee of ministers was appointed to confer with a delegation of the St. Louis Undertakers' Association, which claims that "undertakers do not fix funeral charges but takes orders from relatives of dead persons."

**FORTY-INCH MODEL OF CONSTITUTION**

Boston, Mass.—A forty-inch model of the United States Frigate Constitution, conforming exactly in every detail and proportion to the original "old Ironsides" that is spending her last long furlough nesting against a dock in the Charlestown Navy Yard, has been added to the famous collection of miniature ships housed in the Old State House here.

This little Constitution cost Lieutenant Colonel William F. Spicer of the Marine Corps eight years of work. And so faithfully, so patiently and so well did he build that his model has been sailed on the ocean.

The ship has been pronounced perfect in line, in sheer, in proportion, and in every detail of her intricate rigging. Colonel Spicer used 675 blocks in making the tackle and 2,532 hitches in the rigging. Two pieces of Mexican mahogany make the hull. The 44 guns are wooden, carefully chosen so that their weight would not be too great to permit the sailing of the vessel. The upper works are of lighter wood, the sails are of silk, and every one is to scale.

Colonel Spicer said he made the model because he "loved the old frigate."

**CONSPIRACY CHARGE IS ONLY ONE LEFT**

(Continued from Page One.)

however, by the moves which followed when Judge Edwards closed with the announcement that without consulting either side he would set the embezzlement charge against the governor for trial on Monday, January 9.

**Mortimer Objects**

C. Fred Mortimer, state's attorney of Sangamon county objected and asked that the conspiracy case be called first. C. C. LeFors, chief of the governor's lawyers opposed the motion and demanded that the governor be tried first as ordered by the court under the indictment which charged him alone with misconduct and commission of a felony while state treasurer.

Mr. Mortimer announced that he would abide by the verdict in the conspiracy case if it was tried first and not try the embezzlement charge if the governor should be acquitted of conspiracy. The court suggested if the state was willing to enter into such an agreement the shortest way would be to dismiss the embezzlement charge entirely as it could not be tried anyway.

After a consultation with his associates Mr. Mortimer nolleed the charge.

He then moved that the defendant be arraigned and enter their pleas but the defense asked for a bill of particulars, in which the court agreed.

The state was directed to furnish the bill to Mr. LeFors Thursday, January 5 and the defense agreed to offer further motions January 7.

**Statement by Small**

"The indictments which were pending at noon today in the Lake county circuit court were returned by the grand jury of Sangamon county last July. It will not be difficult for the people of Illinois to recall the wave of ill feeling that was caused to flow over the state by the character of propaganda that had for its purpose the destruction of my good name through the state and to deprive the people of my usefulness as their governor."

"From the beginning I have been most desirous of having these cases tried. The public has known that the chief and only charge against me as a state officer was the charge of embezzlement while I was the treasurer of the state of Illinois."

"This case today was set for trial by Judge Edwards on January 9, 1922. My attorneys announced that they were ready for trial. The state attorney of Sangamon county and the attorney general of Illinois refused to prosecute this case, and over my objection and against my protest and wishes, the state attorney and attorney general dismissed this suit without trial and without affording to me an opportunity to disclose and establish the fact that they have no case, that they never had one, and that I had never illegally received, either directly or indirectly, one penny of the money of this state while acting as its state treasurer, as a private individual, or in any other capacity."

"I am naturally embittered over this procedure."

"It must be borne in mind that Lake county was the county accepted by me from a list of counties submitted by the prosecution and in that county I was ready and am now ready to be tried."

"I do not think that any fair minded person at the present instant will criticize me in the slightest degree for declining to have my case, or any of my cases tried in Sangamon county, Illinois."

**THOUSANDS OF TUBERCULAR CASES**

Indianapolis, Ind., Dec. 29.—There are seven thousand ex-soldiers from other states afflicted with tuberculosis crowded into Denver, Colo., hospitals at the present time, C. J. Harris, director of service of the American Legion said today upon his return from the west. Mr. Harris went west to investigate the hospital situation with a view to establishing relief measures for disabled soldiers suffering from tuberculosis who are not provided with proper hospital accommodations.

**AMOS W. KELLOGG IS SERIOUSLY WOUNDED BY THREE ROBBERS**

(Continued from Page One.)

robbers cut the telephone wires and this is another indication that they were men used to such work. It is also believed that the men had a local tip because it is not likely that outside men would come into the city and hold up a restaurant in the location of the Kellogg establishment unless they had information of the amount of money he carried.

Some months ago Mr. Kellogg was robbed and at that time he escaped with only a small loss. Chief Kiloran at that time warned him against keeping any considerable amount of money about the building.

After the robbery Chief Kiloran notified Sheriff Weatherford and the sheriff, together with Deputies Roach and Wright immediately joined the police in the search for the men.

There was no trace of the robbers when the officers reached the restaurant. It is thought they had an automobile parked, probably in East State street as the police would have noticed any car going east on North street on their way to the scene of the crime.

**Among the Boldest Holdups**

This is one of the boldest holdups ever perpetrated in the city. With all of the crime in other cities, Jacksonville has been indeed fortunate. It would seem, however, that the war being waged in the larger cities against criminals, has driven some of them into the smaller cities and it behooves all merchants to be careful and not keep large sums about their places of business, but to place their money in the bank each day.

Chief of Police Kiloran stayed on the job all night and assisted Captain Elliott and the night force while Sheriff Weatherford and his deputies also remained on duty.

At the time of going to press, no clues had been obtained.

**RECOMMENDS LAW AMENDMENT SOON**

MANILA, P. I.—(By The A. P.)—Stating that it is the belief of the government at Washington that the law governing the lease of exploration of oil lands in the Philippines is less liberal to foreigners than it is in America, Governor General Wood in recommending the amendment of the law says he is acting on the suggestion of the department of state at Washington. The governor general's message says: "The department of state finds in its efforts to insist on the proper treatment of our nationals by foreign countries in this matter (lease of petroleum lands and other lands containing mineral oils) that it is confronted with the statement that the law in the Philippines is less liberal to foreigners than is the law in the United States and the department believes it should be made to conform exactly with the law of the United States."

**WIVES OF STRIKERS FORM ORGANIZATION**

**TRAVELING CARNIVALS SPREAD GAMBLING**

Chicago, Dec. 29.—Traveling carnivals were condemned as the means of spreading gambling and vice thruout the small towns of the country and legalized immorality carried on under the protection of the marriage vow, was denounced in the final sessions of the International Purity Conference here today.

Ninety per cent of the divorce cases are caused by a departure from the stricter standards of purity among married couples, declared Rev. F. W. Schwenk, of Buffalo, N. Y.

**CHANGES MIND ABOUT RETURNING TO AMERICA**

(By The Associated Press)

WARSAW, Dec. 29.—Wolf Lindenfeld, also known as William Linden, who when arrested here recently in connection with the Wall street bomb explosion, begged Sylvester Cosgrove, an American department of justice agent, to return him to the United States, has changed his former attitude.

Lindenfeld, now, according to the local police, says he will fight any effort that is made to

take him back to the United States. He has engaged an attorney and has informed the police that he prefers to face the Polish charges against him rather than go back to the United States.

Gosgrove is awaiting instructions from Washington.

**Satisfied!**

King George in his new fancy waistcoat stepped out on the balcony of the palace after the signing of the Irish peace treaty to show how happy he was.

**OFFICIAL STATEMENT OF THE ANTI-SALOON LEAGUE OF NEW YORK RESPECTING SACRAMENTAL WINE**

The attitude of the Anti-Saloon league regarding sacramental wine is exactly the same as it was when that distinguished Catholic prelate the late Archbishop Ireland, about thirty years ago, agreed with the well-known Methodist Episcopal leader, the late Dr. A. J. Kynett, that the Anti-Saloon league, which was in process of forming, should be started on a basis which eliminated any possibility of disagreement on questions of either creed or party. Archbishop Ireland, for many years was one of the national vice-presidents of the Anti-Saloon league, the place he occupied being now filled by Father J. J. Curran, of Wilkes-barre, Pa.

As the regular meeting of the state board of directors was about due, the superintendent's statement of the league's attitude respecting the questions that have been raised, was withheld in order that the benefit of official action might be had in removing some of the misapprehension that seems to exist in some quarters, and this statement has been unanimously adopted by the board of directors.

The Anti-Saloon league has never proposed and will never support any legislation which does not make full and fair provision for the obtaining of sacramental wine by the accredited representatives of any church which uses it for sacramental purposes, subject only to reasonable regulations which will prevent the provision for sacramental wine being used by others as a cloak to cover traffic for beverage purposes. Further, we do not believe that any person in authority or charged with responsibility for the enforcement of prohibition has even contemplated the imposition of any regulation which will interfere in any way with bona fide sacramental use. The Anti-Saloon league will join with the Catholic church or any other church in resisting any attempt in the name of prohibition to impose any degree of coercion or to interfere in any degree with absolute religious liberty upon this question.

**Unfermented Wine Advised**

We have been advised by Catholic clergymen who we have reason to believe are quite as well informed as any of those who are unduly disturbed over this matter, that the pope could, if he wished, make the use of unfermented wine perfectly proper in Catholic churches. Our attention has been further called by Catholic priests to the fact that in the Roman Catholic church, the wine is taken not by the people, as is the case in the Protestant churches, but by the priests only.

If the churches, which use intoxicating wine for sacramental purposes, could see their way clear to adopt something else, it would facilitate the carrying out of the policy adopted by the nation, and would help prevent violation of the law by unprincipled persons who seek shelter behind some religious rite. The Jews on their own initiative, thru their outstanding American committee, with the co-operation of leading rabbis, are at work on the problem of preventing abuses. In the meantime, the league holds that this is a matter which must be left for the voluntary decision of each church for itself.

**ISSUE STATEMENT ON CEMETERIES**

Tell Lot Owners Some of Plans—Also Want Requests Left For Care of Lots.

The appointment of two boards of local citizens to be in active charge of Diamond Grove and Jacksonville cemeteries has been announced in a statement issued by the city council of Jacksonville.

To those interested in the two cemeteries, the council states:

"The Statute of Illinois provides that a Board of Managers of three may be appointed by the City Council to receive trust funds. These trust funds to be invested by the Board of Managers in Government securities, municipal bonds or other equally high grade securities, the income from which shall be used for the upkeep of cemetery lots.

"There has long been a demand for a board of this kind. The funds to be properly invested, and money properly expended. The City Council, by ordinance, has created such a board and has appointed: W. A. Jenkinson, Harry M. Capps and Dennis Schram.

"An additional requirement is that these men shall be bonded in a reputable, surety company. These men have accepted and their services are gratitudes.

"Amounts sufficient that the interest therefrom will keep up your cemetery lot or those of your friends, are solicited.

"In making your will, please remember to include this item of cemetery upkeep.

"An additional cemetery commission has also been appointed, to have general management of the cemeteries. This commission is composed of C. H. Russell, P. V. Coover, C. Y. Rowe, Mrs. Linda Myers and W. E. Boston.

"It is hoped and expected that with one commission to accept funds, another commission for the management of cemeteries, that our cemeteries, may be improved.

"We ask your co-operation. "City Council

**PREPARE TO OPEN T. B. SANATORIUM**  
Trustees Hope to Have Institution in Operation Early in February  
Altho it has not been possible to announce the opening date of the Morgan County Tuberculosis sanatorium, the trustees, A. A. Curry, W. R. Turnbull and Dr. T. O. Hardesty, are pushing arrangements just as rapidly as possible. It is now the expectation that the sanatorium will be open about Feb. 1, altho arrangements have not yet been concluded for a superintendent.  
The interior work has been completed insofar as funds are available and in the weeks near at hand a number of rooms will be furnished. Various organizations have co-operated in an interested and generous way in the furnishing of the sanatorium.  
Among other preparations the trustees have made has been the compiling of rules governing the admission of patients to the sanatorium and their conduct while at the institution. An information sheet has also been prepared. Relatives of persons who are expecting to enter the sanatorium for care will be supplied an information sheet indicating the necessary clothing and toilet articles which should be taken with each patient to the sanatorium.  
It has been determined that non-residents of Morgan county will be charged \$21 per week for sanatorium care, which will include ordinary medical attention and nursing service. The visiting hours will be from 2 to 7 o'clock p. m., and there will be no visiting outside these hours except by special arrangements.  
In the rules outlined for patients emphasis is laid upon the thought that there must be co-operation on the part of the patient in carrying out the rules if any good results come from their stay in the sanatorium.

**NO VERDICT RETURNED IN COHEN DAMAGE CASE**

Instructions Given to Jurors Before Noon Thursday—Bennett and Co., Win in Grain Shipment Suit—Docket Entries.

The jurors who heard the evidence in the damage suit of Miss Goldie Cohen against her brother, Benjamin Cohen, received instructions from Judge E. W. Smith yesterday at 11:30 o'clock and retired to consider their verdict. At an early hour this morning no finding had been returned and there are indications that the jurors will be unable to reach a verdict.

In the afternoon by agreement, Judge Smith heard the evidence in the assumpsit suit of the Neelyville Grain and Supply Co., against James E. Bennett and Company.

Just before adjournment Judge Smith gave a decision in favor of the defendant. This was a case wherein the Neelyville Grain and Supply Co., claimed that settlement had not been made with them for a car of wheat and a car of corn shipped to the defendant. The evidence tended to show that the amount due for the two cars was deducted from another amount that the Neelyville elevator owed to James E. Bennett and Co., on open account, and that settlement had been made.

In the assumpsit suit of Jacob De Onnellas vs. Avery Co., the motion of the complainant for a new trial was denied. An appeal to the appellate court was prayed and granted, a bill of exceptions and bond for \$300 to be filed and approved by the clerk.

In the bill of Gates Strawn as administrator vs. Henry Oakes, et al., J. A. Bellatti withdrew as guardian ad litem and W. N. Hainsgrove was named in his place. Motion was made by the complainant for leave to make Mrs. Arminta Dunlap, administratrix of the estate of T. B. Orear, a party defendant and the motion was allowed.

In the suit of the Mauvalster Drainage and Levee District vs. John Frank, et al., the rule on the defendant to close the testimony was extended to January 10.

In the action brought by Henry J. Rodgers vs. Edith Fox, et al., in aid of execution, the order of June 20, 1919, making the trustee in bankruptcy proceedings of Edith M. Fox a party complainant on his motion was set aside limiting their appearance for the purpose of this motion. The defendants moved to strike from the files the purported amendment to the bill filed by W. R. Wicks, trustee, Dec. 20, 1921, and the motion was allowed. Motion was entered by the trustee in bankruptcy, W. R. Wicks, to file an intervening petition. Motion was entered to substitute W. R. Wicks as defendant in place of Edith M. Fox.

HERMAN KURTZTISCH,  
 Milwaukee, Wis.

"When it comes to eating, working and sleeping I'm like a different man from what I was a short time ago," said Herman Kurtztisch, 406\* Norris Place, Milwaukee, with the Northwestern Life Insurance Co., in relating his experience with Tanlac.

"My whole system was about to give way as a result of two years' constant suffering from stomach trouble and I was so run down and worn out I was hardly able to work. I actually dreaded to eat, as after every meal I suffered so terribly from heartburn, and I was so nervous I got little rest day or night.

"If it hadn't been for Tanlac I'm firmly convinced I would have had to resign my place. It came to my aid in the nick of time and I am strong for it. Tanlac was worth at least fifty times what it cost me."

Tanlac is sold in Jacksonville by J. F. Shreve, druggist, and Coover Drug Co., and by leading druggists everywhere.—Adv.

#### TRADE EXTENSION COMMITTEE MET

Making Plans for Co-Operative Clearance Sale—Expect to Sign Up at Least 100 Merchants for Sale.

The trade extension committee of the Chamber of Commerce met yesterday morning to discuss and decide the arrangements for the big Jacksonville Co-Operative Clearance Sale to be held in January.

The committee is busy signing up the merchants for this project and already have twenty on the list. The total number expected to participate will be between seventy-five and one hundred.

It is the hope of the committee to be able to have the sale during the ten days between the 11th and 21st of January, but at yesterday's meeting it was thought that details could not be arranged by that time, so it was proposed to have the sale a week later, from the 18th to the 28th. The committee will meet again some time this morning and decide on the date.

At the meeting yesterday, Frank Plouer, of the F. J. Vaddell & Co., was made a member of the trade extension committee, making the total number of the committee sixteen.

The idea of the big co-operative sale is to combine the efforts of the merchants in the regular January clearance sales. The sale will be advertised much the same way as the Dollar Day Sale, and will be advertised thru the newspapers and with placards in towns within a fifty mile radius of Jacksonville. Many of the merchants state that they are ready at this time to offer the people of Jacksonville and immediate territory some of the greatest bargains that have ever been offered by their firms; bargains even better than those of dollar day, and for a ten day period.

#### The SHEIK

With Agnes Ayres and Rudolph Valentino  
 By E. M. Hall

"The Sheik" is an amazing photoplay which shows you the way an Arab chief makes love to a beautiful English girl he has captured. A thousand wild mounted Bedouins with long rifles and flowing robes obey his slightest wish—ride through the picture like the wind—how shall she escape? She sees the slave-bridal dance beneath the great canopy for his sultan's pleasure. She is to become one of them unless fate rules otherwise. That is the plot of it. The shiver of it.

**THE PRESBYTERIAN CHURCHES**

"A long-time resident" commenting on the Fox memories, that there was some mistake about the churches.

The First Presbyterian church occupied a handsome new church on the lot where the Journal office now is in 1848. It burned in December, 1861. All of the ground from State to Morgan street, and from West street to the Widmayer alley belonged to the church. The part where Gallagher block now stands was used as a horse lot.

The church of 1848 was succeeded by a much larger and finer one, with a tower clock in its tower. This church was built in the Rev. L. M. Glover's pastorate, and was occupied in January, 1867, it did not have the Gallagher lot, which was built upon in 1868-9.

This second church burned in September, 1883, in Dr. J. R. Sutherland's pastorate.

**EARLY MORNING PROWLER AT WORK**

Enters Two Residences; One Woman Compelled to Flee House in Night Clothing With Child

An early morning prowler entered two residences in the city at an early hour Thursday morning, choking one woman and causing another to flee from her home in her night clothing; barefooted.

From the manner in which the prowler worked the police are of the opinion that the same man entered both places. It is also believed it is the same one who entered a large number of residences here last summer.

The first place entered was the home of Mrs. Clara Smith, 214 South Prairie street. Here the prowler forced a front window and passed thru a room where Mrs. Smith's two sons were sleeping.

He entered the room of Mrs. Smith and when she awakened he choked her. Evidently fearing that others in the home would be aroused he made his escape.

The police were notified and Captain Elliott and Patrolmen Williams and Blue made a fast trip to the Smith home. However, they were unable to find anyone in the vicinity.

**Second Visit of Intruder**

The officers had just arrived at the station after their search when Mrs. Edward McKavitt, of 347 West North street, rushed into the police station in her night clothing, bare-footed. She had her little daughter, aged about four years, with her and the child was badly chilled from the cold.

Mrs. McKavitt informed the police that when she awakened she found a man in the room and she thought to feign sleep and let him take what he wanted. However, he came to the side of her bed and made an insulting remark.

Mrs. McKavitt grabbed her child, who was sleeping beside her and rushed for the door, which she managed to get unlocked, and ran into the street and to the station. The baby's feet and knees were lacerated by falling on the rough ice on the pavement.

The officers immediately rushed to the McKavitt residence but the intruder had made his escape. A thoro search was made of the vicinity but no trace of the prowler could be found.

**MILK ORDINANCE TO GO IN EFFECT JAN. 1**

The new milk ordinance goes into effect Jan. 1. Numerous requests for application blanks for licenses have been made to the city clerk, Jewell E. Scott, during the last few days.

Owners of two cows are required to pay a license fee of \$1. Milk dealers owning more than two cows pay \$2 and there is additional charge for more than one wagon and building used in the sale of milk.

The licenses are issued under the supervision of the health department, of which Dr. A. M. King is head. Twenty-seven questions must be answered on the blanks, by the milk dealers.

W. G. Redman of Barry was calling on business men in Jacksonville Thursday.

**IT STARTED SOMETHING**

"Your medicine is the talk of the town since pulling me from the grave. I have told dozens about it and I know of at least ten who are now taking Mayr's Wonderful Remedy, all with good results. I never saw anything like it. One man who had been operated on for gall stones and had them come back, took it and says his symptoms are all gone now and he swears he is cured." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at all druggists.—Adv.

### IRREGULARITY IN STOCK MARKET

By Associated Press.  
NEW YORK, Dec. 29.—Re-  
sumption of the selling movement  
to establish income tax losses and  
weakness among specialists whose  
position has long been a matter  
of conjecture provoked consid-  
erable irregularity in today's stock  
market. Another adverse develop-  
ment of considerable significance  
since in involved a local institu-  
tion, was the suspension of the  
Banica Italiana di Sconto of  
Rome, which operated numerous  
branches thruout Europe and  
South America.

The money market imposed no  
restraints upon constructive ef-  
forts. Call money opened at five  
per cent and held at that rate  
thruout the session, while time  
funds for the shorter dates were  
plentiful.

Rails were strengthened by the  
extra five per cent dividend on  
Delaware, Lackawanna and West-  
ern and publication of numerous  
November statements of earnings,  
some of which offered ground for  
encouragement.

Among equipments, steels, oils,  
motors and miscellaneous shares,  
the movement became more un-  
settled with the progress of the  
session. Sales amounted to 775-  
000 shares.

Victory notes were strongest  
of the domestic war issues, lib-  
erties easying for the most part.  
Railroad bonds continued to  
strengthen, especially the various  
convertible offerings. United  
Kingdom of Italy 6 1/2s reacted to  
the news of the financial crisis in  
Rome. Total sales (par value)  
aggregated \$18,775,000.
